

Invitation

Dear colleagues,

It is our pleasure to invite you to the 9th Workshop of the Slovak Clay Group "Clay minerals and selected industrial minerals in material science, applications, and environmental technology", which will be held in Terchová on June 26-28, 2023. Accommodation and catering will be provided in Drevenice Terchová resort. The aim of the seminar is the presentation of the results of PhD students and young scientists, the presentation of the results of current research projects at your institutions, as well as an informal discussion of the results focused mainly on the research of clay minerals and related materials.

We are looking forward to your participation.

SCG council
